

Du bist auf der Suche nach einer neuen Herausforderung?

**Mit mehr als 3000 Stores ist Foot Locker weltweit der führende Anbieter von Sneakern und athletischer Bekleidung. Foot Locker Europa - das bedeutet:
Eine 30 jährige Geschichte mit 620 Stores in 20 Ländern
Ausgeprägte digitale Erlebnisse durch ansprechende Websites und interaktive Social-Media-Plattformen**

Die Foot Locker Europe.com GmbH sucht zum nächstmöglichen Zeitpunkt am Standort Recklinghausen einen

Data Integration Architect (m/f)

Verantwortlichkeiten

- Articulating the current architectural vision, conceptualizing and experimenting with alternative approaches, creating data models and validating the architecture against requirements and assumptions
- Providing guidance, leadership and expertise to define architectural strategies across various teams to ensure the solutions are scalable for future business needs
- Designing, creating, refining, deploying and managing the organization's data architecture including the end-to-end vision for how data will flow from system to system, for multiple banners and across borders
- Working well within an agile team environment and applying the related working methods.
- Communicating and documenting best practices to leaders and other architects throughout the organization
- Being experienced in API development, including best practices, testing methods and deployment strategies
- Providing on-call support for data integration processes as part of a rotation within the team.
- Staying abreast of current technology trends as it relates to development languages, databases and data integration tools

Qualifikationen

- Master degree or foreign academic equivalent degree in Computer Science or related field plus a minimum of 2 years of relevant, progressive experience is required
- Strong analytical skills to explore, evaluate and understand data stories and to uncover optimization opportunities
- Strong knowledge of agile methodologies
- Experience with Talend, Kafka, Web Services (SOAP/REST), SQL, NoSQL, XML, JSON, Java, Apache Tomcat, FTP, SSH, SVN, Git, Linux and Windows based server environments, SCRUM and Data Modeling tools
- Fluency in English (verbal & written) plus excellent written and verbal communication skills

Unsere Benefits

- Flexibles Arbeiten
- 30 Tage Urlaub
- Mitarbeitererevents
- Mitarbeiterrabatte bei Sidestep, Runners Point und Foot Locker
- Arbeiten in einem internationalen Umfeld
